GLENDALE—
The CITY of HOMES

VOL. XVI GLENDALE, (LOS ANGELES POSTOFFICE), LOS ANGELES COUNTY, CAL., THURSDAY, SEPTEMBER 30, 1920 25

FIRST UNIT FORMED

GLENDALE HIGH Y CLUB CAME INTO BEING LAST NIGHT

The first unit of the Glendale High Y Club was formed last evening at the First Baptist church. The following officers were elected: Dale Wood, president; Tom McNary, vice-president, and George Jordan, secretary.

The purpose of this club is to help promote clean speech, clean living, clean scholarship and clean athletics in the High School. They are planning a number of community activities and among the first of these will be a Father and Son Banquet.

Prof. Alfred Cookman has been elected as leader of the club. Mr. Cookman was a pole vaulter of some note when he was in college. He was quarter miler on the Varsity Track Team and helped make some of the Coast records at that time. At the time he was a Sophomore in college he was spending his summer vacations instructing the High School and other teachers of the state on the bird life of California and is recognized as one of the best authorities on the Coast on that subject. He has always been identified with the moral welfare movements of the schools.

WHY NOT FACTORIES?

J. C. O'DELL WRITES ON POOL HALL QUESTION FROM A NEW ANGLE

J. C. O'Dell, the transplanted Missourian, in a communication signed "Old Joe," ventures an opinion on the pool hall question which strikes an entirely different note from all previous arguments, pro and con. After condemning the pool hall in no measured terms and suggesting that in the last word the letter a should be changed to e, he adds: "The 20 prominent business men who met at the City Hall last Friday to lay concrete plans for the establishment by the city of a recreation center and to set on foot a plan of action that will harmonize all factions, have a big job on their hands as such violently opposed factions do not often harmonize." Therefore he suggests that this committee of business men advocate something like the following: "Whereas, the Pacific coast section is in need of more factories, we recommend that the city of Glendale set apart locations that will induce capitalists to put up shoe, automobile and other factories that will mean payrolls of many thousands of dollars, and furnish places of employment as well as recreation to our young people, for it is well known that all up-to-date manufactories now provide amusements for their workers." In this way both the financial and social wants of our young people will be provided for.

Addresses W. C. T. U.

Mrs. Ruby J. Smart, 110 Olive St., attended and assisted in a meeting of the Eagle Rock W. C. T. Union, recently organized, last Friday. She gave an excellent talk on the work of the organization as it concerns present day issues. Yesterday Mrs. Smart addressed the Pasadena W. C. T. U. Federation at a meeting in Library Park, on the need of registration and voting. Both meetings were attended by large numbers, and Mrs. Smart's talks were well received.

Christian Endeavorers

Glendale Christian Endeavorers in general are preparing for the Union rally that is to be held in the Eagle Rock Presbyterian church next Tuesday evening, October 5th. Each society of the city has its part to play and all expect to receive an inspiration for the coming ear's work.

DODGE STANDS FIRM

NO REDUCTION IN PRICE AT PRESENT, FACTORY NOTIFIES MR. CLAYTON

In speaking of the lowering of prices by many motor car manufacturers, George E. Clayton, local agent for the Dodge car, says he has been assured by the factory that there will be no change in prices in Dodge Brothers' cars for the present. "The man who bought a Dodge Brothers' car always got full value for his money, and this will always be true as long as Dodge Brothers build a car," said Mr. Clayton. "There is no reason for a reduction in price of this car at present."

MANY COMING WEST

ARCHIE PARKER SAYS IOWANS PLANNING MOVE AFTER ELECTION

Archie Parker of the Quality Grocery informed the Evening News today that he is looking for a number of his fellow-townsmen of Marshalltown, Iowa, and friends from Waterloo, out here this winter. Most, if not all of them, will wait until after the election to start—as they do not want to lose their votes, but they will surely come then. He says his son, who is treasurer of a big theater in Waterloo recently wrote him not to sell the home in Glendale as he and his wife might have to come and spend the winter with "Dad and Mam." The theater he is connected with is in a large business block that is all heated by a centrally located furnace which requires 350 tons of coal each winter. Now they have just 3 tons on hand, he writes, and dealers give no promise of more, owing to recent strikes and to lack of railway transportation. This coal shortage is causing nearly all the well-to-do people in the cities he knows to plan spending the winter in California, says Mr. Parker, and he looks for a regular deluge of them right after the election. It is probable that all the beach cottages that are generally empty all winter, will be filled this season as soon as all accommodations in the inland cities are exhausted, which time is not far distant.

NEWCOMER ADVISES

SUGGESTS FRATERNAL ORDERS ADVERTISE MEETING PLACE, TIME, ETC.

Glendale, Cal.,
Sept. 29, 1920.

Editor Glendale News,
Glendale.

Dear Sir:—

I desire to call the attention of the different fraternal orders in Glendale, through your valuable paper, to what I believe is a very negligent oversight on their part, and that is that they do not carry a running announcement under the head of Lodges, giving the name and number of each lodge, on what nights they meet, where their hall is located, the name of the head officers and their city address. If the different orders would do this, there is no doubt but what they would have the pleasure of meeting and getting acquainted with a great many visiting brothers during this fall and winter while the tourist season is on.

Now-a-days almost every man belongs to some fraternal order and some men belong to several, and when away from the home town a great many would like to attend lodge meeting. Naturally the first thing a man would do, would be to get hold of a paper to find out if the order he belongs to has a lodge here, and on what night it meets, etc. I understand that almost every large fraternal order has a lodge in Glendale. Take it in my case here. I belong to one of the largest fraternal orders in the U. S. I've been a member in good standing for 29 years and have been through the different chairs. Now I know that the order I belong to has a lodge here with a membership of about 125 and though I have been here in Glendale practically since last February I do not know on what nights they meet, where the lodge hall is located, or the names of any of the officers or members. Unfortunately I'm confined to my room and bed, therefore I've not been able to go out and run across any of the members; and they, on the other hand, have no way of knowing that I'm here. It's not my object in writing this to create the idea or impression that I'm in need of any assistance, but, after one has belonged to an order for 29 years, and for years has taken a very active part in its work, and now is practically a stranger (outside of a few relatives in the city), he feels at times as though he would enjoy having some of the members of his lodge call and have a social chat with him.

Yours truly,
J. A. M'GOWAN,
210 S. Cedar St.

Mrs. Ward Entertains

Mrs. Geo. Ward, 902 East Wilson avenue, assisted by her daughter, Mrs. Ray Sherman, entertained a number of friends at luncheon and a charming, old-fashioned quilting party Wednesday. Those enjoying the occasion were Mesdames John Addison, Thomas Addison, Henry Ward, Richard Addison, H. L. West, and Misses Myrtle Knott, Edith Addison and S. Goff.

$2,000,000 FIRE IN GALVESTON

BLAZE RAGING ALONG WATERFRONT FOR NINE HOURS CAUSES BIG LOSS; STEAMERS BURNED

(Special Service to Glendale Evening News)

GALVESTON, Tex., Sept. 30.—Fire swept a portion of the Galveston water front today, causing a loss estimated at $2,000,000. The blaze raged uncontrolled for nearly nine hours. It was brought under control by heroic work of firemen, and allowed to "burn itself out." The firemen concentrated their efforts on keeping the flames from spreading.

The fire was first discovered in the plant of the Texas Gulf Sulphur Company at 2 a. m. A high wind fanned the flames, sending sparks along the water front, and into the residence district. Burning chemicals made the fire especially difficult to fight. Eight men were overcome by fumes from the sulphur company's pier. The pier and plant, a mass of ruins, were still burning at noon. Sparks carried the fire to the Cotton Concentration Plant containing thousands of bales of cotton. The plant and all of its contents were destroyed.

The fire centered in what is known as Galveston's "west-end," at the foot of Thirty-sixth street.

The Italian steamer Aetna, loaded with 253,000 bushels of wheat, was destroyed. The Italian steamer Oceana was also partially burned. The steamships Ancon, Glorie de Larrinaga, and Hornsby Castle were saved, but not without rigging and top decks being charred and badly damaged. For a time it appeared that they would be lost.

A string of box cars loaded with grain was also burned. The Shipside Cotton Compress was about one-third destroyed.

NAVY DIRIGIBLE CRASHES INTO HILL

FIVE NARROWLY ESCAPE WHEN BIG BALLOON LOST IN FOG, STRIKES MOUNTAIN IN LAUREL CANYON

(Special Service to Glendale Evening News)

LOS ANGELES, Sept. 30.—Five men narrowly escaped death when the navy dirigible C-6, on its way from San Diego to San Pedro, became lost in a dense fog, and crashed into the side of a hill in Laurel Canyon, near Hollywood. Four of the crew were injured. Two escaped injury.

Chief Pilot Gordon McDonald said the dirigible left San Diego at 6 o'clock this morning for San Pedro to participate in the fleet celebration tonight. Half way between San Diego and Los Angeles they encountered a fog and went to a high altitude and out of the fog. When he thought he was nearing Los Angeles, McDonald flew down to an altitude of 1000 feet, and again encountered a thick fog. While maneuvering, the dirigible struck the mountain. The car was torn from the gas bag and fell 200 feet to the bottom of the canyon, with the five men in it. When the car was torn from the bag a large hole was ripped in the side of the balloon, and it fell to the ground. The C-6 is one of the largest of this kind on the Pacific coast, being 200 feet long and having a capacity of 172,000 cubic feet of gas.

CONTINUE BASEBALL PROBE

JUSTICE WILL APPOINT GRAND JURY AS SPECIAL INVESTIGATING BODY WHEN TIME EXPIRES

(Special Service to Glendale Evening News)

CHICAGO, Sept. 30.—The Cook county grand jury will continue its investigation into crooked baseball, Chief Justice MacDonald of the Criminal court announced today. He said he would appoint the grand jury as a special investigating body Monday, after its time expires, and instruct its members to continue the probe.

MacDonald's statement followed a published report that State Attorney Hoyne had ordered the grand jury to discontinue its work because of no legal basis for the proposed indictments, already voted against eight members of the White Sox team and two gamblers. MacDonald said there had been no consideration of appointing a special prosecutor because of Hoyne's alleged attitude. MacDonald said if more players had confessions to make they would be received but thought no immunity would be granted.

REQUESTS DISMISSAL OF POST

AMERICAN LEGION CHARGES ASSISTANT SECRETARY OF LABOR IS HAMPERING DEPORTATION OF ENEMIES

(Special Service to Glendale Evening News)

CLEVELAND, O., Sept. 30.—The dismissal of Lewis F. Post, assistant secretary of the department of labor, was asked by the executive committee of the American Legion in convention here today. The committee charged Post is obstructing the deportation of enemies of the United States, and his continuance in office is a menace to the country.

DROP IN WHEAT

(Special Service to Glendale Evening News)

CHICAGO, Sept. 30.—Wheat futures dropped 9c on the Chicago Board of Trade today. Other grains also declined. December wheat was off 9c, and March wheat was down 9 1-4c.

COMES FOR BRIDE

THOS. HARDIE OF POLSON, MONTANA, WEDS MISS LINDA MARGARET RAE

Thos. Hardie of Polson, Montana, was united in marriage yesterday, 1 o'clock p. m., with Miss Linda Margaret Rae, at the home of the bride's parents, Dr. and Mrs. D. F. Rae, 316 Milford street. The rooms were beautifully decorated with roses, pink carnations and ferns. Promptly at the appointed minute the bride and groom entered the parlor to the strains of the wedding march from Lohengrin, played softly by Miss Carolyn Bailey, organist at the Presbyterian church, and took their places before Rev. W. E. Edmonds, who, using the double ring ceremony, united them in the holy bonds of wedlock. As they left the parlor Mendelssohn's wedding march was played by Miss Bailey. A bountiful wedding dinner was served on a table decorated as were the rooms, the centerpiece of which was a large wedding cake. At 5 o'clock Mr. and Mrs. Hardie departed for a wedding journey during which they will visit in San Francisco, Portland and Spokane, and will then settle down in Polson, where Mr. Hardie has a prosperous drug business.

Those present at the ceremony besides the bride's parents were Mr. and Mrs. Henry Stong, two daughters and a grand-daughter, of Alhambra; Mr. and Mrs. Wallace Holbrook, Mr. and Mrs. Will Hammond and Mrs. Dudley Kenyon of Pasadena; Mr. and Mrs. Mac Gillam of Los Angeles; Mr. and Mrs. Walton Bartlett, and Mrs. Rowe, neighbors living on Milford; and Rev. and Mrs. W. E. Edmonds. Mrs. Stong is a sister of Mrs. Rae and her eldest daughter, Mrs. Homer Day, has been a resident of Sydney, Australia, for five years. Her husband came to this country with her but is now in New York City.

The bride is the only daughter of Dr. and Mrs. D. F. Rae, who lived for many years near Moscow, Idaho, before coming to Glendale. The daughter graduated from Idaho State University and afterward taught four years in Kalispell, Montana, which is not far from Polson. It was while teaching in Kalispell that she met her future husband. She came a few weeks ago to spend the summer with her parents in Glendale and he followed at the appointed time to claim his bride.

VELIE NEXT

M. J. M'GREW RECEIVES NOTICE OF DROP IN PRICE OF CAR HE REPRESENTS

M. J. McGrew, distributor for the Velie car, has received word from the factory that prices on this car have been lowered, in line with the general reduction of prices on motor cars. Mr. McGrew is announcing this reduction in today's issue of the Evening News and quoting prices which show a substantial drop. "The Velie people got into line at once although this car has always been priced low," said Mr. McGrew.

For Mrs. Jackson

Mrs. R. M. Jackson, 333 North Orange, will be entertained tonight at a farewell dinner party by Mrs. L. A. Phillips, at her home on Virginia Road, Los Angeles. Mrs. Jackson leaves Monday morning for a trip, to be gone one month. She will attend the Convention of Christian Churches to be held at St. Louis, and will visit her niece, Mrs. Ben Logan, at her old home in London, Kentucky. Mrs. Phillips' entertainment is in the nature of a family get-together, before Mrs. Jackson's departure. The guests will be: Mesdames W. E. Evans, R. M. Jackson, M. Ewell Smith, Mattison B. Jones, F. W. Pigg, Thomas Furst, and Miss Winifred Jones.

To Build Home

Andrew T. O'Connell of Kentucky, the former owner of the Casa Verdugo Sweet Shop, has purchased the place on Opeeche Way belonging to R. C. Hanson. Mr. O'Connell will build a beautiful home in the near future but will live in the garage until its completion. Before he purchased the Casa Verdugo Sweet Shop he made several trips between the states of Kentucky and California with the intention of bringing his wife and three children out here, but decided to wait till he could have a home for them. Now he is rejoiced to feel that this dream of a home for all of them in beautiful Glendale is about to be realized.

TRUITT BUILDS

IS FINISHING TWO FINE BUNGALOWS ON MELROSE AVE. DOESN'T LIKE NORTH

W. L. Truitt is doing his share toward furnishing homes for newcomers though some of his work in this line is not on record as it is just outside the city limits, hence no permits are required. He has two handsome 5-room bungalows approaching completion at 1109 and 1111 Melrose avenue, both of them $4000 structures, and he and J. E. Carpenter are now engaged in tearing down the old Broadway School building, which they bought of the school board for $600. When all the lumber and debris are removed from the grounds, the work of laying out playgrounds for the children will be completed. Mr. Truitt is now living on West Doran, not far from Central avenue, where he owns just an acre of ground with a comfortable house thereon.

Mr. Truitt spoke rather humorously yesterday of the attempt of himself and family to live away from Glendale. They tried it in Eureka for a time, but he said he and they could not stand only about 15 minutes of sunshine a day after enjoying Glendale's unclouded skies so many months in the year, so they came back as soon as they could make the necessary arrangements and are perfectly contented to stay right here.

Fryers Receive Damages

Mr. and Mrs. H. F. Fryer, 1424 North Pacific avenue, have received a check covering all loss incurred in the automobile accident which damaged their car as they were returning from Redondo, the eighth of August. Attorney W. E. Evans handled the case very ably, and secured all damages asked by the Fryers. The accident occurred at Angeles Mesa and West Adams, when J. O. Houser, of Covina, ran into the car driven by Mrs. Fryer. No one was hurt, but Mrs. Fryer suffered from severe nerve shock. The two front wheels of the Fryer car were broken, a tire and fender ruined, and axles badly bent.

Ben Bolen Loses Father

Friends of Ben F. Bolen, 369 West Myrtle, regret to learn of the death of his father, P. B. Bolen, at his home in Los Angeles last Monday. Mr. Bolen died very suddenly from heart failure. Funeral services will be held Friday afternoon at 1:30 at the Pierce Funeral Parlors, after which the remains will be interred in Rosedale Cemetery.

Wednesday Club

The Wednesday Club held its opening fall meeting with Mrs. G. D. Roach yesterday at her beautiful new home, 459 Milford street. The members were all present, and the occasion, being in the nature of a house-warming, was doubly interesting. The new house was lovely in its decorations of roses and dahlias. A delicious cafeteria luncheon was enjoyed at noon. The ladies spent the time with hand work, and the regular collection for charity was taken.

Those present, in addition to Mrs. Roach, were: Mesdames Charles Glover, Jack Hearnshaw, Chas. Sanders, William Nash, H. Lee Clotworthy, Frank Hester, Arthur Muhleman, Herbert Reed of Long Beach, Chas. Freshman of Los Angeles, and Miss Clara Ringert.

TEACHERS' CLUB

FIRST MEETING OF YEAR HELD TUESDAY AFTERNOON AT INTERMEDIATE

The Glendale City Teachers' Club held its first meeting of the year Tuesday afternoon at the Intermediate School. A social half hour preceded the business session. Many new teachers were welcomed. Supt. White explained the proposed constitutional amendment, number 16, which is to be voted upon in November. If this amendment is passed, the state as a whole will have to assume more responsibility in the way of educational taxation, instead of an unfair proportion burdening county and district.

Miss Clara Midcalf, 314 North Orange street, president of the club, gave an excellent report of her attendance at the Convention of the National Educational Association held in Salt Lake City this summer.

UNITY NEEDED

H. M. BUTTS ADVISES THAT TIME-WORN TRADITIONS BE CAST ASIDE

I have read with interest all that has been written regarding the billiard hall question, pro and con, and it is apparent that no matter on which side they may be, each and every one seems desirous that something be done to supply, in some manner, the want, felt by so many, for more of a diversity of amusements and recreation in Glendale.

My esteemed friend, Mr. Lindley, expresses himself very broadly as regards a Civic Center amusement project and I would gladly join him in this as I have in other matters, were such a project probable, for be it known to those who so bitterly oppose the proposed change in the ordinance, that there are many, like myself, who signed Mr. Cushman's application, who would gladly see the city put in a much-needed recreational center and thereby make possible a much more comprehensive system.

All this should be done and all this could be done were it not for the strongly divergent views held by our good citizens.

The Ministerial Association makes this public statement: "That we pledge our hearty co-operation with any movement looking toward the establishment of a civic amusement center which shall include a first-class swimming pool, baseball and tennis grounds and such games for our youth." This sounds very well for a beginning, but see the fateful reservation they make that must be complied with before even this harmless project may receive their unqualified support:—"and provided that such center shall be under proper supervision and shall be closed on Sundays."

On this snag have met shipwreck most of Glendale's projects. Shall we continue to be governed by time-worn traditions that cast gloom on the life of every natural child, or shall we step out into the sunlight of our own California and enjoy it to fullness? Why limit a good thing to six days a week? The sun shines, the rain falls, the grass grows, the birds sing on all days alike. Man, alone, makes a distinction. And in this distinction is the chief cause today for the lack of unity of action in community matters of real importance to Glendale.

Let the Ministerial Association and kindred organizations withdraw from their stand as to closing on Sundays those amusements which are entirely proper on Mondays. Let them do this and let them get behind a sincere movement for a Civic Center which will include among its amusement features pool, billiards and bowling and they will be surprised at the success of their efforts. But will they do this thing?

In the meantime I believe the Council will pass the new ordinance and then, in the future, if the city can supply a more attractive place of amusement than that furnished by private enterprise, the private enterprise will automatically cease to exist.

I, with many others, feel that the day has come when the legitimate rights and wishes of all the people in Glendale must be respected and heeded if we are to make the most of our town, and I honor our Board of Trustees for the broad-minded attitude they have assumed during the present controversy.

Yours for progress,
H. M. BUTTS.

Tough Old Man

That most remarkable of octogenarians, Georges Clemenceau, is packing up his kit with a view to scaling the Himalayas and doing a little tiger-hunting. What a man!

Just consider the effect of the rigors of the peace conference on most of the men who bore its heaviest burdens. President Wilson's health was wrecked; Orlando of Italy was politically extinguished; Lloyd George is still desperately trying to extricate himself from its consequences, and is facing unheard-of problems. Deschanel, the "peace president" of France, has been forced to sacrifice his life-long ambition in one of the most pathetic incidents of recent history.

And here is this indestructible old man, with a bullet inside him, running rings around the Pyramids, riding a donkey in the Holy Land, trotting back home again, packing his grip and off and away like a lad of forty for the tall peaks and the tiger lairs.

None worked harder than he at Versailles, and he was years the senior of them all. None bore more of criticism and anxiety. He is an old man, with an utterly cynical viey of his own and everyone else's performances.

But if he returns safe from his Indian adventure the world need not be surprised if he announces his intention to check up Amundsen's figures on the South Pole.

No wonder the plenipotentiaries at Paris said he was a tough one. He is.

The public should insist on defining a "vacation" by a body of workers as a strike—calling a spade a spade.

YALE'S 1920 TEAM

FAST LIGHT ELEVEN HOPE OF UNDERGRADS AND COACHES

NEW HAVEN, Conn., Sept. 30. (United Press.)—The Yale eleven, while comparatively light is unusually fast.

Preliminary work was begun a week earlier than usual this year. On the basis of its showing in scrimmage and the adaptability of the men to new formations the coaching staff already is expecting great things of the team. The under-graduate body, of course, is confident of a "Big Three" championship.

There are eight "Y" men in the squad, which numbered more than 100 at first, but has now been pared down considerably. The letter men are:

Captain Callahan, center; Acosta, guard; Walker and Dickens, tackles; Kempton, quarter; Aldrich and Campbell, halfs, and Webb, full. All of them won their "Y" last year with the exception of Callahan, who has had his letter for two years.

Yale's weakness, if she has one, is expected to develop at end. Munger and Dilworth are expected to be the ends when the season opens with Carnegie Tech, Saturday, Oct. 2d. Munger was a sub tackle last year. Dilworth has a fine war record. He was wounded in the elbow and reopened the wound in scrimmage last year, but now appears to be in good shape.

Herr, who is expected to occupy the guard position which Galt held down ably for two years, weighs 270 pounds and is fast for his weight. He was on the freshman team last year.

It was believed to be the plan of Head Coach "Tad" Jones to start French at half in place of Campbell. He weighs 175 and is probably the speediest man on the team. He also is a good punter and may alternate at punting with Aldrich. French was a sub-half last year.

Other men who will make first-string substitutes in the event they fail to get places on the varsity are: Bean, center; Trippe, Baldwin and Bean, guards; Quaillie and McKay, tackles; Calhoun, Shevlin and Eagan, ends; Murphy, quarter; Sturne, half, and Jordan, full.

Eagan is the intercollegiate heavyweight boxing champion and won the championship in the light heavyweight class at the recent Olympic games. He played half in some of the earlier games last year. Murphy is the best drop-kicker on the squad but is light and extremely amenable to injury. He may be used as a "pinch-kicker."

After the Carnegie Tech games comes North Carolina, then Boston College, West Virginia, Colgate, Brown, Princeton and Harvard, Virginia Poly and Tufts were dropped in favor of the West Virginia and Colgate games, in an effort to make the schedule somewhat heavier in preparation for the two "big" games with Princeton and Harvard. All games will be played in the Yale Bowl, the seating capacity of which has been increased to 75,000, except that with Princeton.

Aside from the Princeton and Harvard contests, interest chiefly centers in the game with Boston College. Every effort will be made to avenge the humiliation suffered last year through the unexpected defeat by that eleven.

As Reasonably Priced as a Good Player Piano
But It Means Infinitely More In Musical Enjoyment
After you hear this "miracle piano" you will ask yourself, "Why should anyone even think of any other kind of a self-playing piano, when the wonderful Ampico in the Haines may be had for practically the same price as a player piano?"
Come in at once and hear
The AMPICO in the HAINES BROS. PIANO
You may play the AMPICO in the HAINES 3 ways: To REPRODUCE the playing of artists; to play by hand, or to give your own interpretation to any standard 88-note player music.

We shall be glad to arrange convenient terms of payment for you, and will accept your present piano or player piano in exchange.

CHILDLESS CITIZEN

DOESN'T OBJECT TO BILLIARDS AND POOL IF PLAYED IN PROPER ENVIRONMENT

September 29, 1920.

To the Editor of the Glendale Evening News:

Dear Sir:—

I am sorry indeed to read a letter in your paper signed by Mrs. Ella Richardson. She does not seem to see the issue. No reasonable man or woman has any objection to the game of billiards if played in the proper environment, but any man or woman that has real love for the young folks' welfare should object to the average pool hall that one sees today. Having had occasion in times past to visit some pool halls in the course of business, would state that I always felt a sense of relief when my business was transacted and I could proceed on my way. Mrs. Richardson makes a very slighting remark regarding what she terms the "Childless people." I happen to be in that class with the exception that I love children and take great pleasure in seeing them get along and enjoy themselves on the way, as I know from experience that "they are only children once" and in my opinion should get all the joys possible before they have to assume the cares of grown-ups, and I know the environment of the average poolroom does not by any means necessarily bring happiness or joy. As before stated, I am one of Mrs. Richardson's "Childless people" but I am grateful to feel that I am enabled and privileged to help some of the "Parentless Children" that are trying to make good and only need a helping hand and a little kind encouragement to make them see the necessity of doing right and continuing in school, etc. I am at present helping one of these "Parentless Children" through High School, and will try my best to show him why he should go through college. So you see, Mrs. Richardson, even the "Childless people" sometimes do good. I would like to see a real recreation center owned by the city with all the necessary attractions for both young and old to be kept open seven days every week.

Yours truly,
CHILDLESS AND NON-CHURCH MEMBER CITIZEN.

Women's Big Test

Now that women have been ushered from the realm of the ideal in politics to the common ground of experience, and have been duly accorded a part in the attempts of men to establish in the nation a copy of the eternal prototype of law and order, it is but natural that they should experience disappointment at the contrast between the facts and their conception of what self-government should be.

Although many women have testified that they went to their first registration as voters with a feeling of awe and even of religious exaltation as they realized they had become a part of the body politic, there must inevitably come a letting down from this high feeling as they become a part of the machinery of government and feel the drag of petty selfishness and small personalities which spreads its network of barbed wire in the path of the advancement of mankind.

The real test of women in politics comes with this disillusionment and the question of real moment is whether they will descend to become a part of the baser aspects of political strife, and thus increase the difficulties, or whether they will hold fast to those qualities which have brought them honor and reverence.

More Than One Kind

The man who invented smokeless powder says that bomb outrages are possible because of the neglect in congress to appropriate money to regulate the sale and handling of explosives, which, he declares, may be obtained "with comparative ease by anyone." Some day the world will be old enough to express an opinion upon the mental processes of a nation that has provided an elaborate system to trace every drop of alcohol from still to consumer, and yet permits dynamite to be handled as freely as coal. There is more than one form of prohibition.

Perhaps, too, the time may come when we shall see more clearly than we do today the relation between crimes of violence and the availability of deadly weapons. There may be fewer murderous assaults when laws make the purchase of guns difficult.

Perhaps, too, the time may come when we shall understand that it is not necessarily true that any man who has enough money to buy an automobile has enough brains to drive one.

Advancement comes slowly and usually a great calamity is required to shock people into action. The terrible tragedy of Wall Street may have served one good purpose if it hoped that we shall not always wait results in protection against a repetition of the experience. It is to be for calamity to arouse us to progress.

A political fakir is a person who promises a man that the government will help him when he is not willing to help himself.

The Souvenir Mania

The desire for souvenirs if satisfied may not profit the hunter greatly while it may injure many others. A dispatch from Paris notes that because a group of American tourists removed some articles to be brought home as souvenirs from Fort de Vaux at Verdun the military authorities have decided to allow visitors no longer to penetrate the historic site. It is added further that there has been such abuse of privileges that other historic areas will also be closed unless greater respect is paid. Even name plates from crosses in cemeteries are stated to have been removed in the lust for souvenirs.

No doubt there are many millions of people not only in America but over the world at large who hope to visit the scenes where the Americans fought side by side with the gallant French poilus. Yet the desire may be denied realization because a few with total disregard of the proprieties have abused the privileges granted them. Thus to secure a few trinkets of no tangible value they injure untold numbers of others.

The battle grounds of Europe are sacred spots and it is a strange sort of person that would stoop in any way to desecrate the ground where men by the thousands died bravely fighting for us as well as themselves. It is a morbid, a ghoulish instinct that prompts one to stealing anything that properly belongs there. Though it may be done under the plea of securing a souvenir does not diminish the gravity of the offense.

Building in Mexico

SAN ANTONIO, Tex., Sept. 30.—(United Press.)—A building boom has struck Mexico with the advent of the first real peace the inhabitants have experienced in many years, judging by reports reaching building contractors here.

Practically every city of more than ten thousand people has reported much building activity.

Contractors have been asked for bids on paving, drainage systems, factories and railroad reconstruction they report. Cities in both North and South Mexico are building as they have never built before, the Mexican Trade Bureau of the local Chamber of Commerce reports.

Advertise in the Evening News.

American System

The American library system has been adopted in all public and private libraries throughout Norway. Practically all librarians of standing in that country studied their profession in the United States. There are at present five Norwegian women studying library science at the New York State Library School in Albany. Twenty Norwegian librarians have already been graduated from this school and are now filling important library positions in Norway.

One of these graduates, Mr. Arne Kildahl, has been called from his post as Librarian of the Public Library of Bergen, Norway, to fill the recently created office of press attache of the Norwegian Legation in Washington. Mr. Kildahl was at one time connected with the Congressional Library in Washington.

It is suggested that pedestrians be licensed, since something must be done to prevent them messing up and delaying automobiles.

It is almost time to begin thinking about doing your Christmas shopping early.

Personals

A 2-room residence has been commenced at 451 West Wilson avenue by Harry Thorp.

Mrs. William H. Hooper, 332 West Harvard, is home from the hospital after an operation.

E. Staub and family have moved from 1439 East Wilson avenue to 1211 East Harvard.

Mrs. John Roman has been ill for two weeks at her home at 515 North Central avenue, but is improving.

Mr. and Mrs. Thomas White of 342 West Wilson avenue had a pleasant trip to Long Beach Wednesday, returning today.

Chas. F. Hoyt is adding a bedroom and screen porch to his residence at 1154 North Columbus avenue and building a garage, also.

Dr. A. O. Dieterich has let to the Bentley-Schoeneman Co. the contract for building a 5-room home at 531 North Maryland avenue, to cost $4000.

Christian Taemner of Los Angeles, the world-famous violinist, will be the dinner guest of Mr. and Mrs. C. Cable, 505 South Columbus avenue, tomorrow evening.

Miss Bertha Jackson, 332 North Orange street, has accepted a position as teacher in the Compton High School. She will spend her weekends at the home in Glendale.

Miss Margaret McOmber, 1530 E. Broadway, book-keeper for the J. A. Newton Electric Company, left this morning for a month's vacation with relatives in San Francisco and Berkeley.

The courtesy committee of the P.-T. A. met Wednesday afternoon at the home of its chairman, Mrs. C. H. Thompson, 348 Milford, to discuss activities of the organization for the new school year.

Capt. Dennison of the Glendale High football team is limping about as the result of an accident in Tuesday's game by which he suffered a sprained ankle, which is likely to keep him out of the next game or two.

Mrs. Kara Smart Root, 110 Olive street, has received word that Miss Frances Gauntlett, who was her ward here for four years, and graduated at the Glendale High School last June, has reached her home in Tokyo, Japan, safely.

Geo. H. Warren, who formerly lived at 640 North Maryland avenue, writes from Worcester, Mass., where he says he and the family expect to stay for several months, asking that the Evening News be sent him to 18 Montague street, that city.

Dr. C. E. Brain and wife are moving this week into their brand-new home at 428 Salem, from 446 West Colorado. They bought the place some time ago before it was finished and had it completed according to their own ideas. Dr. and Mrs. Brain are old residents of Glendale.

Mrs. Lucille Alexander has bought Geo. Staub's new residence property at 401 West Lexington Drive and moved in yesterday. She and her two sons, who are working in a bank in Los Angeles, came here a few months ago from Texas and have been living at 1018 Virginia Place.

Mrs. J. F. Cullen of 1108 Oakwood avenue is moving today to 600 North Maryland avenue, where she will live temporarily until the completion of the beautiful new home she is to build on the corner of Doran and Maryland. She has rented the house on Oakwood to Mrs. J. F. Vimmer of Chicago.

A six o'clock dinner was given at the home of Mr. and Mrs. C. C. Child, 345 Myrtle street, last evening, in honor of Mr. Child's parents, Mr. and Mrs. Hammer, of Des Moines, Iowa, who are spending a few months in Glendale. Covers were laid for Mr. and Mrs. Hammer, Mr. and Mrs. Geo. C. Hastings of 319 Lexington Drive and for Mr. and Mrs. Child and son, Edward.

Everett Clark of Los Angeles reported to the police yesterday that as he was driving north on Maryland avenue, about 9 a. m. in a Ford, a Grant, driven by H. E. Lemaster, of 1146 East Lexington Drive, west on Wilson, struck his car, turned it entirely around and damaged it considerably. One of two men riding with Mr. Clark, who is building a home in Glendale, was cut and bruised about the face but not seriously hurt.

Miss Margaret Fred of Chicago, who is on her vacation, has been visiting her friends, Mr. and Mrs. J. A. McGowan, of 210 South Cedar street, and Mr. and Mrs. W. L. Russell at 101 North Cedar street. Miss Fred left the other day for a couple of weeks' visit with her uncle, Will Kenny, who owns a ranch about 40 miles north of Glendale. Miss Fred has been in the employ of the C. & N. W. Ry. for the past several years, but she is so taken up with California, and especially Glendale, that she intends to secure a position and stay here. Her mother and brother, also an aunt and uncle of Chicago, will locate here within a couple of months.

YOUNG REPUBLICANS

MEET LAST NIGHT AND FORM CLUB FOR CAMPAIGN WORK

There was a large and enthusiastic meeting of young people of both sexes at Republican headquarters last night to organize the Young People's Republican Club of Glendale. W. E. Evans was chosen as temporary chairman and he stated the object of the meeting, which was to form the Young People's Republican Club of Glendale, the membership to include voters of both sexes living in the 61st assembly district. Owen Emery was elected president; R. C. Plume, vice-president, and Emil Kiefer, secretary. It was decided to have three committees—on Membership, Program and Publicity, the first to have five members and the others three each. The president appointed Dru Nicoles chairman of the Membership Committee, Gordon Clayton of the Program Committee and Robert C. Plume of Publicity. He announced that he would appoint the other members of these committees before the next meeting.

It was decided to call another meeting for next Thursday evening, Oct. 7th, at which time the organization will be completed. This meeting will also be held at Republican headquarters, 114 East Broadway.

The utmost enthusiasm was displayed at last night's meeting and the determination expressed to get out a full vote on election day.

Turpentine and Lard

When you were knee-high to a grasshopper; when you used to get your feet wet and catch cold, did your mother drop a hunk of lard into a saucer, pour some turpentine on it, heat it to a scalding temperature, soak a woolen rag in it and tie it around your neck while you writhed and clawed to get away? Somehow or other that turpentine and lard (or maybe it was the heat) would cure the cold.

As a nation, we have caught cold. We are looking for a remedy. Many cure-alls have been offered but they are all either too scientific, or too complex, or too something else. Anyway they don't seem to work.

Meanwhile we are slowly swinging back to a simple, old-fashioned, home-made remedy. Maybe it is the heat in it rather than the turpentine and lard which makes it work. No matter the reason, the fact is it works. This country will get rid of its cold yet. Witness the following dispatch:

Washington, Sept. 30.—Approximately 75 per cent of all War Savings Stamps sold by the Treasury since the outbreak of the war are still retained by investors, according to figures made public tonight.

The statement shows that total sales were $1,168,200,000. Redemptions to the middle of September have aggregated slightly more than $360,000,000.

Honest effort, a fair day's wage for a fair day's work, simple living, intelligent thrift and systematic saving by every individual who calls himself or herself a real American, will cure our ills. As a real American, start today on that program.

The Canine Policeman

Dog lovers and those who love a good dog story will grieve to hear that the dog as a member of the police force is not a success. Belgium was the first nation to develop the police dog, and New York City followed in 1908. Now, after twelve years of trial, the commissioner of police is about to discharge all his canine assistants.

There have been howls of protest from the dogs and from the citizens. Both are convinced that a mistake has been made, but the facts are against them. Not one burglar has been apprehended by the canine guardians of public safety, and there has been no decrease in burglaries or holdups in the regions where the dogs were employed.

The cowbird, like the cuckoo, lays its eggs in nests of other birds.

ACTIVE AND ASSOCIATE MEMBERS ADMITTED BY GOVERNING COMMITTEE

At a meeting of the Governing Committee of the Glendale Realty Board, the following real estate firms and individual dealers, were admitted to membership:

Active

H. L. Miller Co., Charles B. Guthrie, H. M. Miller, Burton-Chandler & George, Lusby & Campbell, Edwards & Wildey Co., Mrs. M. L. Tight, Stoddard & Kranz, Heal & King, Ezra Parker, C. H. Thompson, F. W. Pigg, Broadway Real Estate, MacGregor Realty Co., Glendale Realty Co., Mrs. H. W. Joss, Clem Moore, J. F. Chandler and W. E. Mercer.

Associate

W. P. MacMullin and H. E. McCartney with Edwards & Wildey Co., O. E. Von Oven with Chas. B. Guthrie, H. E. Rice and E. T. Allen with H. L. Miller Co., J. W. M. Burton, R. D. George, G. L. Taylor, J. E. Wilson and Mrs. Sara Pitcher with Burton-Chandler & George, B. F. Bourne and H. R. Houston with Glendale Realty Company.

Application blanks are being prepared which will be distributed to the other real estate firms by the secretary.

Between 50 and 60 people, most of them church members, enjoyed "getting their feet under the same table" in the Christian church bungalow last evening at 6 o'clock, and at 7 enjoyed the Bible study in the book of Luke conducted by Rev. C. A. Cole, pastor of the church. The prayer meeting, from 8 to 8:45, was conducted by John M. Ray, who made it very interesting to all present.

J. G. Ferguson has sold his home at 806 East Harvard street, and leaves with his family tonight for Dunsmuir, where he goes as bridge inspector of the Shasta Division of the Southern Pacific. Monroe Horner of Nebraska has bought the Ferguson home, and will move in this evening. Mr. and Mrs. Ferguson have many friends in Glendale, who regret to see them move from the city.

Excavations undertaken to constitute Brussels a seaport have been completed.

The inner recesses of the Okefinokee swamp of Georgia have never been visited.

MRS. KASSEAL

FUNERAL SERVICES HELD YESTERDAY, BODY SENT EAST FOR INTERMENT

Funeral services, which were held Wednesday afternoon over the remains of Mrs. Elizabeth Kasseal in the Jewel City Undertaking Company's parlors, were largely attended by members of N. P. Banks W. R. C. of which Mrs. Mary G. Pollock, daughter of Mrs. Kasseal, is past president, and members of N. P. Banks Post, G. A. R., for Mrs. Kasseal while never transferring her membership from her Corps in Rochester, N. Y., always found much pleasure in attending the local Corps and contributing to the cheer and happiness of members of both Post and Corps. Officers and members of Glen Eyrie Chapter, O. E. S., as well as friends and neighbors, were in attendance to pay their homage of love and respect to the memory of sister, friend and neighbor.

Following the Episcopal service as delivered by Dr. Cornell, rector of St. Mark's Episcopal church, of which Mrs. Kasseal was a communicant, the beautiful and impressive Eastern Star service was touchingly rendered. The Misses Adams sang "Abide with Me" and "One Sweetly Solemn Thought," while the Eastern Star sang "Nearer My God to Thee." Numerous floral tributes of roses, carnations, chrysanthemums and other early autumn blossoms were silent messengers of love testifying to the esteem in which Mrs. Kasseal had been held by friends and neighbors and the general sympathy with the family.

The body of this estimable woman was sent to her home city, Rochester, N. Y., where it will be met by her daughter, Mrs. Lulu Simons, and family, who reside in Newark, New Jersey, and there, attended by her former neighbors and friends and this loving daughter, who though absent sent her weekly loving messages to the mother, all that is mortal of this Christian woman will be laid tenderly and lovingly to rest beside the grave of her husband, who preceded her to that newer life many years ago.

Mrs. Kasseal to her immediate family was a most loving and sacrificing mother, ever studying to render some little act of love and kindness. To her neighbors and friends she ever portrayed a true and loyal friendship.

The two daughters, Mrs. Mary G. Pollock of this city, with whom Mrs. Kasseal made her home the past few years, and Mrs. Ida Gates of Oakland, who were with the dear mother at the time of her passing, together with her only son, Charles A. Kasseal, of Los Angeles, as well as her grandson, Allen K. Pollock, were ever faithful to all requirements giving love, strength and care that her life might be prolonged, but it was not to be and the loving mother fell asleep with her arms filled with the sheaves she had garnered from her Master's harvest fields. The other grandchildren, who, with Allen K. Pollock, mourn the passing of their loving grandmother, are Mildred and June Simons of Newark, N. J., Darwin Kasseal of Los Angeles and Charles E. Gates of Oakland.

DODGE BROTHERS MOTOR CAR
The World's Best Low-Priced Car

YEARS OF SERVICE UNDER ALL CONDITIONS HAVE LONG AGO PROVED THE SUPERIORITY OF THE DODGE BROTHERS CAR

Dodge Brothers policy has ever been to give true value for the price asked. There will be no reduction in present prices of Dodge Brothers car.

Keeps Ships on Course

By HENRY WOOD
(United Press Staff Correspondent)

PARIS, Sept. 10. (By Mail.)—Thanks to the invention of Monsieur W. A. Loth, a French scientist, working under the auspices of the French Ministry of Marine, ships in the future may be guided by electric cables laid along ocean beds. The same principle will also be used in guiding airplanes.

By means of this new discovery, which has just been officially tested and approved by the French Ministry of Marine, it will be possible in the future for both ships and airplanes in the stormiest and cloudiest weather that prevents the taking of observations, to keep mathematically to their course.

While it is confidently believed that this new invention will revolutionize commercial navigation, both by sea and air, it is asserted that the possibilities to which it can be developed for war purposes are even infinitely greater. But on this latter aspect of the case, French marine and aerial authorities refuse to talk.

Loth developed his idea in laboratory work before the war, but it was only with the close of hostilities that he could proceed to actual experiments. These have been conducted off Brest and it was there that Minister of Marine Landry made his official inspection and test.

Like nearly all great discoveries, the present one is exceedingly simple. An electric cable is laid along the ocean bed, and in actual navigation these would be laid along all the great trans-ocean routes. Over this cable telegraphic transmissions are constantly sent.

In the hold of the vessel is placed a receiving apparatus that picks up these telegraphic emissions and sound waves. These are carried to the cabin of the navigator where the latter can hear them distinctly by means of a special receiver.

The degree of distinctness with which the telegraphic emissions of the cable are heard tell whether the ship has left its course and to which side of the cable it has strayed. Even if the vessel gets many miles out of her course, the sounds are still picked up.

As a matter of fact however, there is practically no possibility for the ship to get far out of her course unless the navigator goes to sleep for several hours, as the electrical apparatus indicates immediately the slightest departure either to the right or the left and a turn of the helmsman's wheel is all that is needed to bring it back into course immediately.

REPUBLICANS

—who are not registered should do so before Saturday evening of this week, Oct. 2. A registrar will be present at Republican Headquarters, 114 E. Broadway, every day and evening this week. Provision will be made to have the registrar visit homes to register persons unable to come to headquarters. Phone Glendale 535.
